Gear Share

We do not have in-house backline and cannot guarantee headline acts will share their equipment (although they often do). Drum shells and stands will definitely be available, but drummers please bring cymbals, kick pedal and snare. Other musicians please bring whatever amplifiers you require, and if you definitely need a share please let us know.

Your set

Typically we ask that support acts play for around 25 minutes. Keep it short and sweet and leave them wanting more.

Capacity

100

Age Restrictions

The venue is strictly 18+, this applies to performers as well as patrons.

Backstage Facilities

Please note that there is no backstage area at the venue. We keep space for Merchandising, and cases etc can be stored here.

Parking

Aside from load-in/out there is no parking outside the venue until 6.30pm. We advise parking nearby on Chambers St after load-in, and then parking outside the venue after 6.30 when soundchecks are complete.

Load-in

Is either through front door, or direct to stage via side fire exit. We can provide crew at a cost to the artist, but usually find that the artists would prefer to save the cash.
